

CS 655 - Information Delivery on the Internet
Fall 2003
Course Syllabus

Time and Place: M,W,F 11:30 AM - 12:20 PM, JB 127

Textbook: Robert W. Sebesta, Programming the World Wide Web, 2/E, Addison Wesley, 2003

	Instructor	Teaching Assistant
Name:	Chin-Chih Chang	Dharani Duggireddy
Office:	209 Jabara Hall	218 Jabara Hall
Office Phone:	978-3917	978-5266
Office Hours:	M,W,F 10:30 - 11:30 AM (or by e-mail)	T,F 1:00 - 3:00 PM (or by e-mail)
E-mail:	chang@cs.wichita.edu	dkduggir@cs.wichita.edu

Course website: <http://www.cs.wichita.edu/~chang/lecture/cs655/>

Objective: This course introduces the programming tools and skills required for building and maintaining server sites on the Web. It covers client-side tools such as HTML, JavaScript, and applets, as well as server-side tools such as CGI and servlets.

Prerequisites: CS 300 - Data Structures and Algorithms I

Grading:

Homework Assignments	5	20%
Programming Assignments	3	30%
Participation		2-5%
In-class Tests	2	30%
Final Exam (Dec. 8, 11:30 AM - 1:20 PM)		20%

1. Extra problems which require deeper understanding and higher (advanced) level of problem solving ability will be assigned to graduate students.
2. Undergraduate and graduate students are put into two categories for the grading purpose. The graduate students will need higher performance to get the same grade as undergraduate students.

Grading Scale:

A	90-100%
B	80-89%
C	70-79%
D	60-69%
F	0-59%

Late Policy: Homework and programs are due at the beginning of class on the date they are due. 10% of points will be deducted for each working day (Monday-Friday) that an assignment is late.

Honesty Policy: On all assignments and all exams, students are expected to do their own work. Students should follow the University Academic Honesty Policy. This policy can be found in the WSU Student Handbook and is also available at: <http://www.cs.wichita.edu/news/policies/honesty-policy.html>
